Subject: Invitation letter for conducting Master's Thesis at TU Munich

Dear Mr. Jagadeesh Kumar. A,

It is my pleasure to invite you to the Electronic System for High Accuracy Green-house gas Measurement at the Technische Universität München from 10<sup>th</sup> August to 31<sup>st</sup> January 2018 in order to carry out your Master's thesis in the area of Urban Emission Estimates Using TDLAS. The Environmental Sensing and Modeling will provide the required laboratory space and experimental infrastructure that will be required to carry out your thesis. Close collaboration and supervision support from the senior researcher from the Chair will also be provided.

The task of the Master thesis is to design the electronic system to make the TDLAS measurement system be portable. That is: a temperature controller to control the temperatures of the laser and the photodetector, a current signal generator to tune the laser wavelength, and a data acquisition to record the laser light signal.

We understand that your travel expenses to Munich, including all incidental expenses, your accommodation in Munich and health insurance will be borne by you.

With best regards,

Sign by supervisor

## Certification

# Jagadeesh Kumar Ashok Kumar

Has successfully completed all requirements and is now granted the title of:

Alex Davern
President and CEO
National Instruments

DATE: 26th July, 2016

## TO WHOMSOEVER IT MAY CONCERN

This is to certify that Mr. Jagadeesh Kumar A, has worked in our organization, SKYLARK DRONES PRIVATE LIMITED since 3<sup>rd</sup> August 2015 to 28<sup>th</sup> July 2016 designated as Electronics and Flight Controller.

He was responsible for the electronics and sensor integration of the Drones in our organization.

He possesses good technical knowledge and communication skills. During his tenure in our organization, we found his character and conduct to be satisfactory.

We wish him all success.

## **CALCULATION OF CGPA**

The Cumulative Grade Point Average (CGPA) =  $\frac{\sum (C \times GP)}{\sum C}$ 

Where,

C = Credit of the course

GP = Grade Points obtained for the course

CGPA is calculated considering all the courses taken from third semester onwards.
